

Compatibility

Voyager Pro Alloy Trays are fully compatible with Prorack HD and most other popular roof bars with commercial t-slots, out of the box.

Commercial T-Slot Profile

S-Wing Fitting

If you think you can't fit a tray to curved aero roof bars, think again. Voyager Pro Alloy Trays (PR3210 & PR3211) are fully compatible with Prorack S-Wing Through Bars and most other popular curved aero roof bars* with universal t-slots when used in conjunction with Voyager Pro Tray S-Wing Adapter (PR3214, sold separately).

Universal T-Slot Profile

*1100mm of bar space required

Your Adventure Starts with Prorack

Simple, Secure and Very, Very Clever.

Voyager™ is a clever, integrated system for carrying your touring or day trip essentials. Start with the tough Voyager Pro HD Alloy Tray, select the equipment carriers that you need and add the versatile Voyager Pro Tray Accessory Mounts to carry more gear.

Intuitive to fit and easy to use, you can wrap up your day at the beach and be on your way in no time because there's space for all of your gear.

For recreational drivers, the tough, bolt-on mounts will hold your load securely in place from start to finish of your adventure.

The clever new
Voyager™
cargo system

1 Choose Your Tray Size:

Tough, with a sleek, modern design, the **Voyager™ Pro HD Alloy Tray** fits securely onto your roof bars and comes in three sizes to suit any vehicle:

1

143cm x 108cm
Suitable for Dual Cab Utes, SUVs and 4x4's with two 1200mm or greater roof bars.
(PR3210)

2

175cm x 108cm
Perfect for Mid to Large SUVs and 4x4s with two or three 1200mm or greater roof bars.
(PR3211)

3

193cm x 131cm
Ideal for Large 4x4s with three 1375mm or greater roof bars.
(PR3212)

2 Add Your Accessories:

These all-important **Voyager™** accessories will keep your kit safely stowed...

Voyager Gas Bottle Restraint

Attach the restraint to your Voyager Pro HD Alloy Tray for a safe and simple way to transport a 4kg gas bottle, and free up space inside your vehicle.
(PR3208)

Voyager Spare Wheel Restraint

If you're heading off the beaten track, an extra spare wheel is good insurance. The Spare Wheel Restraint attaches straight onto your Voyager Pro HD Alloy Tray, keeping your spare tightly in the tray.
(PR3206)

Voyager Pro Tray Accessory Mounts

Stow compatible accessories safely outside your tray, freeing up much more space inside.
(PR3213)

Voyager Pro Fuel Container Holder

Keep your spare fuel outside the vehicle by attaching the Fuel Container Holder to your Voyager Pro HD Alloy Tray. It's the safe, secure and simple way to carry spare fuel.
(PR3205)

Voyager High Lift Jack Holder

Perfect for 4WD and touring adventures, free up more space inside your vehicle by simply attaching the super-tough, High Lift Jack Holder to your roof bars.
(PR3203)

Take Even More!

The Voyager system's clever **Accessory Mounts** (shown left) enable you to fit all the gear below to the **outside** of your tray, freeing up loads of space inside! **PLUS** you can fit many aftermarket extras, like LED light bars, aerials and spot lights.

Voyager Awning

No room left on your racks for your Voyager Awning after you fit your Voyager Pro HD Alloy Tray? No problem with Voyager Pro Accessory Mounts. Wherever you're headed, your shade goes with you.
(PR3215)

Voyager Recovery Tracks Carrier

Unique, moulded base plates attach straight to your Voyager Pro Accessory Mounts or roof rack for a secure, space-saving way to carry up to four MAXTRAX or TRED recovery tracks. Includes heavy duty straps and buckles with a lockable security cable.
(PR3207)

Voyager Shovel Holder

Shovels can take up an awkward amount of space, but not if they're fixed to the outside of the vehicle. The Shovel Holder fits easily onto your Voyager Pro Accessory Mounts or roof rack, making more room inside the vehicle.
(PR3204)
